

Equipped with static outputs and entirely protected, the SFC200 can be used as flashing unit or interface to control level of halogen lights and LED's.

Features :

- Static Outputs
- Protected Outputs
- 2 Modes : Flashing & Dimmer
- 2 Opto-coupled Configurable Inputs
- Compact

Protections :

- Reverse polarity protected
- Over load protection
- Over current protection
- Thermal Cut Out

Technical information :

	P/N Reference	Operating voltage	Outputs	Max. current by output	Configurable Inputs	Weight	Quiescent current	Operating temperature	Dimensions (mm)
SFC200	P0050F0073	+10VDC to +30VDC	2	15A	2	90g	25mA	-20°C to +60°C	94 x 73 x 26
